

CITIZENS OPPOSE APPROPRIATION TO HELP CLEAN CITY

East Washington Association Also Objects to Large Salary for Commissioners.

Matters of discussion and action by the East Washington Citizens' Association at its regular monthly meeting included defeat of a proposed appropriation for the cleaning up of the city, and an appropriation for the "Mother's Day" plan of Commissioner Cuno Rudolph, demand for the expenditure of \$20,000 on Pennsylvania avenue in the southeast, opposition to increasing the salaries of the District Commissioners and officials with salaries of the higher grade. The show of the losing fight that was waged against the constructing of the District stables in their present site appeared in a resolution.

The meeting was held in the hall at 141 Pennsylvania avenue southeast last night with President W. M. Potter in the chair. A resolution introduced to appropriate \$10,000 to aid in the cleaning up of the city was defeated after J. M. Wood, formerly head of the Street Cleaning Department of the District, had spoken in opposition. He contended that there is no need or justice in calling on citizens or their organizations to aid. Mr. Wood said the contractors had agreed to keep the city clean and are fined for neglect to do it. If these fines were used, as they were in a "clean-up" he conducted, there should be no need for calling for any contributions from outside.

To Aid Movement.

A letter from Commissioner Rudolph, requesting the co-operation of the association in securing observance of Sunday, May 12, as "Mother's Day" in the churches in the southeast section of the city was read. President Potter was named to try to secure the co-operation of the pastors and an appropriation of \$10 was made to defray any expense he may incur.

The need of immediate improvements in the paving and otherwise repairing of Pennsylvania avenue was taken up in a resolution presented by President Potter. A committee of three, under this resolution, which was adopted, will be named to seek from the committee of conference on the District appropriation bill in Congress provision for the expenditure of \$20,000 on the avenue from Thirteenth street to the Anacostia river.

The losing fight of the association to prevent the erecting of the District stables was recounted at length in a resolution presented by President Potter. Congress is memorialized and the help of the committee of conference will be sought to prevent the saddling of any expense for paving the alleys around the stables on property owners in the vicinity. The same committee that will act with reference to the opening of the Avenue will take up the other matter. President Potter said that he will soon announce the membership of the committee of three who will attempt these missions.

FUNERAL SERVICES FOR CLARA BARTON

State Officials and Distinguished Gathering Pay Last Tribute To Woman.

The funeral of Miss Clara Barton was held at Oxford, Mass., yesterday. Barton, of Chicago, had charge of the service, and was assisted by the Rev. Percy Epler, of Worcester. Stephen Barton, Miss Barton's nephew, and Dr. Julian Hubbard, of Washington, attended the obsequies. The exercises were held in Memorial Hall and burial was in the Barton lot, where many of Miss Barton's relatives were buried.

FIVE YOUNGSTERS EMULATE BANDITS, THREE SENTENCED

Allen Outlaws' Deeds and Moving Picture Shows Prompted Robberies.

Prompted by the daring action of the Allen clan at Hillsville, Va., and by the many "hold-ups" and successful getaways of bandits in moving picture shows, five boys under sixteen years of age admitted in Juvenile Court yesterday afternoon that they had been inspired to commit a number of robberies and pleaded guilty to several charges of housebreaking.

The boys arrested were Bertram Thompson, of 1110 Eighth street northeast; Howell Kopp, of 419 I street northwest; Howard Ridgeway, of 1026 North Capitol street; Edward McDonald, of 624 Fourth street northwest; and James E. McGruder, of Bladensburg road.

Last Saturday morning the boys were surrounded at Second and E streets northeast by Sgt. O. T. Davis and Privates Thomas B. Steele, C. M. Anderson, B. F. Williams, and Joe Hille, of the Ninth precinct. The police claim the boys were planning to hold up and rob Fisher's lunch room at Third and B streets. When the police closed in on them a running battle started, in which a number of shots were fired by the boys and the policemen.

A revolver taken from one of the youngsters belonged to J. B. Burke, who was taken from the cash drawer in his place of business.

It is claimed by Sergeant Davis that fully twenty-six robberies and attempted robberies can be traced to the boys. "We were dressed in plain clothes and looking for a gang of experienced burglars, so clean were the jobs by the boys," said Sergeant Davis yesterday afternoon.

Among the complainants appearing in court were Maurice E. Danes, who runs a saloon at Second and H streets northeast; Julius Eloff, of Third and B streets southeast; and Edward T. Bertling, of Fourth street and Stanton place northeast, where \$7.75 was taken. The boys admitted robbing some of the places. Judge De Lacy dismissed Thompson with a warning, because the boy's support is needed by his mother. Ridgeway, Kopp, and McGruder were sent to the National Training School for Boys until they are twenty-one years old, and Edward McDonald was held in the House of Detention last night for final disposition of his case this afternoon.

Dr. Samuel Fry Dead As Result of Fever

He was graduated in medicine in Columbian University in 1902. To Have Lustrous Hair and Rosy Complexion

An excellent way to make the hair bright, silky and fluffy is to shampoo about twice a month with a teaspoonful of canthor dissolved in a cup of hot water. This seems to be a natural tonic for the hair, as it dissolves the fatty, discolored dandruff and leaves the scalp refreshed and in a healthy condition. The hair will dry quickly and evenly without streaking. Women who admire a rosy, youthful-looking complexion will find an unequalled beautifier in a lotion made with 4 ounces of spurgum dissolved in 2 pint with hazel (or hot water) with 2 teaspoonfuls glycerine added. This lotion does not show or rub off as easily as powder and is splendid for taking away that shiny, oily, sallow look to the skin. It keeps the skin smooth, velvety and free from chapping.

Skin Peeling Nature's Aid to New Complexion

(From Woman's Tribune.) Mercorized wax is a natural beautifier. By faking off the devaluated surface skin, it merely hastens Nature's work. The second skin layer, brought gradually to view, exhibits the healthy youthful color produced by capillary circulation. This because the capillaries are thus brought nearer the surface; also because the new skin is unsoiled by dust and dirt. This wax, to be had at any drug store (an ounce will do) is put on nightly like cold cream, washed off mornings with warm water. Its work usually is completed in from seven to ten days, long enough not to show too marked results from day to day, or cause pain or detention indoors. A face bath to remove wrinkles, made by dissolving an ounce of soap in a half pint witch hazel, is another natural beautifier, since its astringent and tonic effects smooth out the wrinkles in accordance with Nature's own process.
